

In 2019, there were
2.8 million job opportunities for
school graduates with Project
Management credentials.*

Take the First Step Towards a Career in Project Management

TOP REQUESTED SKILL

Project Management Institute® (PMI) is the world's leading association for those who consider project, program or portfolio management their profession. The PMI Project Management Ready™ certification is a way for students to immerse themselves in the project management industry and connect with this passionate community of professionals.

The PMI Project Management Ready certification will introduce and familiarize students to the concepts and field of project management, and the tools to apply this knowledge to a wide range of career paths. It fills the need for an industry-recognized certification that allows career and technical education institutions to add value to their programs across career clusters.

WHY PMI PROJECT MANAGEMENT READY CERTIFICATION?

The PMI Project Management Ready™ certification is a new way for students to immerse themselves in the project management industry and get involved with this passionate community of professionals.

It is an entry level project management certification that does not require any prior work experience in project management and/or may not have the minimal educational hours needed to take the Certified Associate in project management (CAPM)® exam.
